

### REMARKS

Applicants submit the above amendment in order to assert the government interest in this matter. In addition, this amendment seeks to correct the error made by the Examiner in the Examiner's Amendment of April 22, 2002 whereby the Examiner amended the specification to update the status of cited U.S. patent applications. Specifically, the filing date of the parent cases cited on page 1, lines 1-3 of the specification, was incorrectly listed as August 18, 1998. The correct filing date is August **19**, 1998.

This amendment does not add any new matter, nor does it necessitate further examination of the application.

Attached hereto is a marked-up version of the changes made to the Specification by the current Amendment. The attached page is captioned "**Version with Markings to Show Changes Made.**"

Please contact the undersigned at (212) 425-7200 if there are any questions regarding this amendment.

Respectfully submitted,
